

## LIGHTING-AS-A-SERVICE INFOGRAPHIC

### WHAT IS IT?

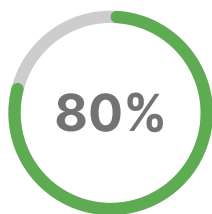

A fully funded, comprehensive five-step solution that enhances your lighting conditions while significantly curbing both energy consumption and operational expenses.

With our Lighting-as-a-Service (LaaS) offering, we manage the entire process, from design to maintenance, for a potential duration of up to 10 years, ensuring you enjoy the benefits without the financial burden.

### WHY IS IT BENEFICIAL?

#### Instant Saving

Achieve instant savings from day one.

#### Capex Free

We fund the entire project upgrade.

#### Free Maintenance

We provide free maintenance for up to 10 years.

#### ESG Focused

We help reduce your emissions.

#### Compliance

We ensure compliance with Australian Standards.

### THE L.U.M.E.N PROCESS

#### STEP 1 LEARN

We perform a comprehensive lighting system assessment, from initial consultation to hands-on evaluation.

#### STEP 2 UNCOVER

We evaluate the best available products in the marketplace, focusing on their alignment with project goals.

#### STEP 3 MODEL

Our lighting designers craft custom designs to optimise chosen technology, prioritising aesthetics, functionality, and energy efficiency.

#### STEP 4 EXECUTE

We prioritise care in every aspect of installation and project delivery, ensuring seamless, high-quality delivery and service standards.

#### STEP 5 NURTURE

We provide free maintenance and support to ensure lighting system performance and sustainability throughout the contract.
